

# Team Meeting

2 December 2023

## Attendees

Blake Smith, Hale Coffman, Aidan Ingram, Landon Bever, Kyle Spragg

## Agenda

### Last Meeting Follow-up

1. In the last meeting we worked on our plan for Software Architecture. Additionally, we began the next few iterations of the coding process for our Arithmetic Expression Evaluator code.

### New Business

2. Implementation
3. Test Cases
4. User Manual

## Notes

- Assign roles for User Manual
- Create test cases for the calculator

## Action Items

1. Each member of the company is given their assignment on test cases and user manual
2. Began final iterations of Arithmetic Expression Calculator. Final code is going to be implemented, and rigorous testing will be used to ensure the calculator is working to full effect.
