

# Team Meeting

11 October 2023

## Attendees

Blake Smith, Hale Coffman, Aidan Ingram, Landon Bever, Kyle Spragg

## Agenda

### Last Meeting Follow-up

1. In the last meeting we worked on filling out our Software Development Plan, where we assigned roles and expected dates for each iteration

### New Business

2. Begin coding process for project
3. Software Requirements Specifications.

## Notes

- Assign roles for Software Requirements Specifications sheet
- Discuss strategy for finishing software development

## Action Items

1. Each member of the company is given their assignment on the Software Requirements Specification
2. Began first iteration of Arithmetic Expression Evaluator code. The code will take in an input and gives it back.
